

POLICY OF THE COMPREHENSIVE MANAGEMENT SYSTEM

In **CYAN LABS** We offer integrated manufacturing services, manufacturing and distributing specialties of cleaning, hygiene, sanitation and water treatment with total quality processes, complying with the applicable legal requirements and other requirements, with sustainable development and a high sense of corporate social responsibility, in benefit of customers, shareholders, community and ourselves.

We are **committed** to carry out our activities under a Comprehensive Management System that improves continuously, and that ensures:

- The **satisfaction of our customers** in compliance with quality specifications and delivery of their products.
- A **safe and healthy work environment** with the participation of all employees in the elimination of hazards and reduction of risks.
- The **improvement of environmental performance**. Preventing and controlling the sources of pollution and taking care of the use of natural resources in our activities.
 - **Labor practices** with ethics and professionalism. Respecting individual dignity and human development.
 - **Security practices in all our shipments**. Mainly those to export to minimize the risks of smuggling of illicit goods and substances that can be used in the manufacture of weapons of mass destruction. Based on the Security Criteria of the Program C- TPAT * and executing the Best Practices CASCEM. * (Customs - Trade Partnership Against Terrorism)
